Personal Details

Date of Birth: 27 August 2004
Languages Known: English and Hindi
Address: Haridwar, Uttarakhand

Profile Summary

- I am a proficient web developer with strong skills in **HTML, CSS, Tailwind CSS, and Bootstrap.**
- I have **effectively utilized AI tools** to implement complex JavaScript functionalities in my projects.
- My ability to **leverage AI** to bridge knowledge gaps has enabled me to deliver high-quality web solutions efficiently.

Academic Projects

Quiz Web Application   **August 2024**
Tools: HTML, CSS, JavaScript

An interactive platform where users can answer multiple-choice questions and receive instant feedback on their performance.
Responsibilities:
- Designed and developed the user interface using HTML and CSS, ensuring a responsive and visually appealing layout.
- Implemented core functionalities using JavaScript, including question navigation, answer selection, and instant feedback mechanisms.
- Utilized AI tools to enhance JavaScript capabilities, enabling dynamic scoring and result calculation features.
- Conducted testing and debugging to ensure the app functions smoothly across different browsers and devices.
- https://anmolbudakoti.github.io/Quizzify-App/

Landing Page for Freelance Platform   **July 2024**
Tools: HTML, Tailwind CSS

The landing page is a sleek and professional web interface designed for Evepe, a freelance company, effectively showcasing its IT consultancy and services through a modern layout using HTML and Tailwind CSS.
Responsibilities:
- Developed a fully responsive landing page using HTML and Tailwind CSS to ensure optimal user experience across devices.
- Integrated visually compelling content and media that aligned with brand guidelines, increasing user engagement.
- Ensured cross-browser compatibility by meticulously testing across various browsers and devices, achieving a 95% compatibility.
- Successfully deployed the landing page to a live server, configuring domain settings and optimizing for SEO.
- https://anmolbudakoti.github.io/CODSOFT-LandingPage/

Landing Page for Learning Platform   **August 2024**
Tools: HTML, CSS, Bootstrap

Crafted an optimized landing page for XCoders, showcasing a range of coding courses and services to attract and engage learners. My main focus was using Bootstrap in this project.
Live Link: https://anmolbudakoti.github.io/XCoders/

Other Projects that I have worked on are –

- Portfolio Page   -   HTML, TailwindCSS
- Calculator   -   HTML,CSS, JavaScript
